Heart Scans

Give Mom the Gift of Heart Health this Mother's Day

A heart scan, or CT Cardiac Scoring, is a Computed Tomography (CT) exam used to evaluate the coronary arteries for plaque and other anomalies to determine if you are at risk for heart disease. The exam only takes 15 minutes, there is no prep and it is non-invasive. Answer the questions below to find out if you are at risk.

**If you have had cardiac bypass surgery, stents, or know you have a cardiac calcification - this test is NOT for you.*

Do you have any of the following primary risk factors?

- Family History of Heart Disease
- High Cholesterol
- High Blood Pressure
- Smoking
- Diabetes
- Overweight
- Sedentary Lifestyle
- Men Over 45, Women Over 55

If you answer YES to any of the above questions, you may be at risk for heart disease.

Call 270-988-2181 to schedule an appointment.

This month only, get a \$75 heart scan.

(Regular price \$99)

The EARLY BIRD SHOPPERS GUIDE

Did you know?

Pickleball is an American original. The popularity of pickleball has risen sharply in recent years, and a recent report from the Association of Pickleball Professionals indicated more than 36 million people played the sport across the United States in 2022. But pickleball is much older than its recent participation boom suggests. According to USA Pickleball, the sport is the brainchild of U.S. congressman Joel Pritchard and businessman Bill Bell. In 1965, Pritchard and Bell arrived at the former's home on Bainbridge Island in Washington to find their families lounging around. Pritchard's property had an old badminton court, but no equipment. So the players improvised, using ping pong paddles and a perforated plastic ball. The net, initially around 60 inches high, was lowered once the players realized how well the ball bounced on the asphalt playing surface. The following weekend Pritchard introduced the game to another friend, Barney McCallum, and the two men and Bell soon created rules for the game that is now known as pickleball.
